

ESTABLISHING A HACCP PROGRAM FOR THE FEED INDUSTRY

February 27-March 1, 2012

A K-State Feed Manufacturing Short Course

Presented in cooperation with the American Feed Industry Association, the National Grain and Feed Association, and the International Grains Program

Background

The Department of Grain Science and Industry at Kansas State University, in partnership with industry associations, has held Feed Manufacturing Short Courses since 1976. These courses are taught by a unique blend of individuals from Kansas State University and within the feed and allied industries, and provide in-depth training on all aspects associated with feed manufacturing.

Who Should Attend

This is an interactive course that focuses on the development of a Hazard Analysis Critical Control Points (HACCP) plan for all sectors of the feed industry, including feed mill managers, quality assurance personnel, and ingredient suppliers.

Location and Registration Information

The course will be held in Manhattan, Kansas, at the International Grains Program on the KSU campus. Travel information will be provided upon registration.

The registration fee for this course is \$475. This includes all short course handout materials, lunches, refreshments and one dinner.

Registrations are being taken at the AFIA website (www.afia.org) under the "Upcoming Events" section. For more information on the short course, please contact:
